2nd Grade Math Remote Learning Packet

Weeks 4-6

April 20th - May 8th

Parents please note that all academic packets are mailed home to scholars but are also available on our website at www.brighterchoice.org under the heading "Remote Learning." All academic packet assignments are mandatory and must be completed by all scholars. Online assignments are to be completed if you have access to technology. If for whatever reason you do not receive a packet in the mail, every Wednesday between the hours of 8:00am-11:00am someone will be at our school to provide a hard copy. We thank you greatly for your continued support!

I can use tape diagrams to help think about whether to add or subtract.

Module 5 Lesson 6

Directions: Draw and label a tape diagram to show how to simplify the problem. Write the new equation and then subtract.

Directions: Solve each problem using tape diagrams.

$$220 - 190 = \underline{230 - 200} = \mathbf{30}$$

+ 10	220

a. $320 - 190 = \underline{\hspace{2cm}} =$

b. $400 - 280 = \underline{\hspace{2cm}} =$

c. $470 - 280 = \underline{\hspace{2cm}} =$

Directions: Draw and label a tape diagram to show how to simplify the problem. Write a new equation, and then subtract vertically. Check your work using addition.

a. $236 - 99 = \underline{237 - 100} = \underline{137}$

Module 5 Lesson 12

Tracy solved the problem $299 + 399$ four different ways.

$ \begin{array}{r} 299 \xrightarrow{+1} 300 \xrightarrow{+98} 398 \xrightarrow{+300} 698 \end{array} $	$ \begin{array}{r} 299 + 399 \\ \underline{298} \\ 698 \end{array} $ $298 + 400 = 698$

Directions: Explain which strategy is most **efficient** for Tracy to use and why.

Out of the four ways Tracy chose to solve the problem, the Arrow Way was the most efficient. The arrow way got her to the answer the fastest.

Efficient: means most productive with little used effort.

Directions: Choose the **best** strategy and solve. Explain why you chose that strategy.
