

# Monday <br> December 7th 

## Name:

Concept development: Write the number in Unit form and expanded form:

| Standard | Unit | Expanded |
| :---: | :---: | :---: |
| 157 | 1 hundred 5 tens 7 ones | $100+50+7$ |
| 236 |  |  |
| 698 |  |  |

## We've learned to add numbers horizontally using different mental strategies.

horizontal is side by side

We can also write numbers vertically, with one number above the other so that each digit is in the correct place value column.

$$
24+15=
$$

vertical is up and down

3. Now, it's your turn to solve vertically! Draw your disks first.

4. Try solving vertically again! Make sure to draw your place value disks first.

| $T$ | 0 |
| :---: | :---: |
|  |  |
|  |  |
|  |  |
|  |  |

5. Try solving vertically again! Make sure to draw your place value disks first.

| $T$ | 0 |
| :---: | :---: |
|  |  |
|  |  |
|  |  |
|  |  |

Name
Date $\qquad$

1. Solve the following problems using the vertical form, your place value chart, and place value disks. Bundle a ten, when necessary. Think about which ones you can solve mentally, too!
a. $22+8$
$21+9$
b. $34+17$
$33+18$
c. $48+34$
$46+36$
d. $27+68$
$26+69$

Name: $\qquad$ Date: $\qquad$
Complete: $\square$
Class: $\qquad$

1
a. Show 25 and 17 in the place value chart.
b. Bundle 10 ones to make 1 ten.
c. Find the total number of ones and tens and solve.

## Lesson 7 G:2 M:4

## EXIT TICKET

Name: $\qquad$ Date: $\qquad$
Complete: $\square$
$\qquad$

1. Solve the following problems using the vertical form, your place value chart, and place value disks. Bundle a ten, if needed. Think about which ones you can solve mentally, too!

Hard, Hairy Bodies
Like insects and other spiders,
tarantulas have a hard covering
on their body. As they grow, the
down the middle. After a tarantula
pushes out of the old skin, its new
skin gets hard.

| What I Know | What I Want to Know | What I Have Learned |
| :--- | :--- | :--- |

## Lesson 10 G:2 M:4

## Build and Bundle

## ZEARN STUDENT NOTES

Name: $\qquad$ Date: $\qquad$
Complete: $\square$
$\qquad$

Ms. Anderson bought 35 crayons on Monday, and 106 crayons on Tuesday.

How many crayons did she buy in total?

Use the place value chart to show your work. Record your answer in the algorithm.

SHOW YOUR WORK

Ms. Anderson bought $\qquad$ crayons in total.

## Lesson 10 G:2 M:4

## EXIT TICKET

Name: $\qquad$ Date: $\qquad$
Complete: $\square$ Class: $\qquad$

1. Solve using the algorithm. Draw disks and bundle when you can.

Fossils are the remains of plants
or animals from long ago that have
turned to stone. Scientists have
found many different types of dinosaur fossils, including bones,
footprints, teeth, nests, and eggs.

skeleton 앙

## Finding Fossils

## How do we know dinosaurs lived

on Earth? Scientists discover fossils in rocks all over the world. Studying fossils helps them learn about dinosaurs. They study what
dinosaurs looked like, where they
lived, and what they ate.
4

$\qquad$
$\qquad$ Class of. $\qquad$

Moises sold 24 raffle tickets on Monday and 4 fewer tickets on Tuesday. How many tickets did he sell in all on both days?
$\longrightarrow 1$

Answer: $\qquad$

Equation that matches your work: Number Sentence
$\square$

Sentence that matches the story: Word Sentence
$\square$

## Friday <br> December 11th

1. Solve using the algorithm. Draw and bundle chips on the place value chart.

| a. $34+28$ |  |  |  |
| :--- | :--- | :--- | :--- |

2. Solve using the algorithm. Draw and bundle chips on the place value chart.

| a. $132+26$ |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- |

## WHAT?

What does the author want me to understand about the topic?
